Boštjan Cigan

SKILLS

Always ready to expand my skillset

◼ CURRENT
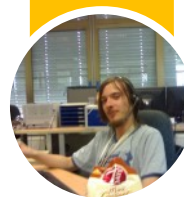

Frontend	React, VueJS
Backend	GraphQL, NodeJS, PHP, MongoDB, MySQL
DevOps	OpenShift
Management	Jira, SCRUM, Kanban, specification writing

◼ PAST

Backend	Java Server Pages, OpenCart, WordPress

EXPERIENCE
I like a challenge

Team and Architect Lead @ Result d.o.o.

🕐

Apr 2017 – Present

_____

Leading and managing projects, Investigating and using new technologies to develop a modern document management application (React, GraphQL, NodeJS) on a microservices architecture (OpenShift)

Frontend Developer @ Sportradar AG

🕐

Nov 2014 – May 2016

_____

Developing frontend (React) and backend betting applications (Virtual Sports Mobile)

Fullstack Developer @ Studio 404 d.o.o.

🕐

Oct 2013 – Mar 2014

_____

During my stay, managing the VPS, developing websites (E-Apoteka, Medkulturnost, Fitnes Zveza Slovenije), optimizing MySQL performance

Fullstack Developer @ Sinergise d.o.o.

🕐

Oct 2010 – Apr 2011

_____

Developing websites in Java (Register of Illegal Dumps), learning GIS and using Jasper for PDF generation

🕐

Before Oct 2010

_____

Web Developer @ Kupi d.o.o.
Web Developer @ Elasa
Technical Support @ Telekom d.d.

FREELANCER
I like diversity

Social Stickers

WordPress plugin
70 000+ users

_____

Present your social networks, create custom themes and track statistics

QxMD Read Widget

Javascript Widget
QxMD

_____

Supplemental solution for Read by QxMD to integrate readers favorite articles into any website

DNA Diversity Index

Python script
Julian Marchesi

_____

Script that calculates the diversity index of a 50 000 x 50 000 matrix file

Bluestone Trading

WordPress plugin
Prosen Consulting LLC

_____

Plugin for showing imported diamonds and studs and checking stock

G24 Contest Game

Facebook Game
Eksit

_____

A simple canvas game where users would compete for basketball tickets by spinning the ball around with their mouse

Cowles Media

Website
Agency MAI

Website for Cowles Media, WordPress solution with internal framework

EDUCATION

Programming a roomba was just positively insane

I wanted to expand my knowledge after my bachelor studies so I enrolled in the master program. I immersed myself in Biomedical Signal and Image Processing and E-Learning

University of Ljubljana

Faculty of Computer and Information Science

Master of Science

Oct 2011 – Oct 2014

I finished my studies with my master thesis titled Development of a remote server control system for Android graded 9/9 (content/presentation)

What I liked most about my courses was Introduction to Computer Graphics, Introduction to Databases and Application Software

_____

University of Ljubljana

Faculty of Computer and Information Science

Bachelor of Science

Oct 2006 – Oct 2011

I finished my studies with my thesis titled The construction of a graphical user interface for the FTP server vsftpd graded 10/10 (content/presentation)

_____

Celje

I. Gymnasium Celje

Secondary School Graduate

Sep 2002 – Sep 2006

I enrolled myself in this school mainly because of the speech the principal gave. I immediately saw that this was the right choice for me

My final exams were graded Mathematics (5), Slovenian Language (5), English (5), Geography and History (3)

MENTORING

I like teaching people and sharing my experience

Professor @ Erudio Center

Jan 2019 – Present

Teaching and developing curiculum for Programming II (Algorithms and Data Structures, Web technologies)

_____

Mentor @ Thinkful, Inc.

Dec 2016 – Present

1 on 1 teaching the fundamentals of Web Development (HTML, CSS, Javascript, GIT)

_____

Lead Instructor @ Smart Ninja

Sep 2015 – Present

Lead instructor, teaching web development for beginners and intermediate level students using Python

_____

Rails Girls

May 2014

Mentoring and teaching girls the basics of web development using Ruby on Rails

_____

Before May 2014

Mentor @ Simbioza
Teacher @ I. Gimnazija v Celju

TESTAMONIALS

"*I hired Bostjan to undertake a bespoke coding project for my research in Cardiff University. He was excellent and very efficient, he wrote the code in a day and debugged, with numerous and very patient emails to me over the next week. Will use again.*"

– Julian Marchesi, Cardiff University

"*Fantastic developer - great communication, really fast, highly receptive to collaborating with project manager and other developers. Highly recommended.*"

– Daniel Schwartz, QxMD

"*Very professional work. Bostjan didn't just complete the job, he left behind a clean software architecture: package management systems for managing imports, shell scripts for installation, etc. He even set up a Gitlab server for me, which was unexpected. It's a pleasure to work with someone with this kind of professionalism, and I hope to work with you again.*"

– Greg Womack

"*We did several mini-projects with Bostjan, ranging from 30 minutes to 70 hours each, after which we had our technical lead review the work and we crunched the numbers. Everything he did ranged from "fine" to "very good", and some specific tasks were hands-down brilliant. His communication is very good - perfect English, confidently spoken and clearly typed. He worked well with other members of the team. Now we have a clear sense of where his strengths lie we absolutely expect to work with him again on the tasks to which he is most excellently suited.*"

– Kevin Hassall, Agency MAI

LANGUAGE SKILLS

English ⑤

Native or bilingual proficiency

_____

German ③

Limited working proficiency
